Performance Review

One of Strongest Quarterly Performances, Building a Stronger Balance Sheet Foundation

Prism Johnson Limited delivered one of its best quarterly performances, with consolidated **EBITDA⁽¹⁾ increasing 26.6% YoY to ₹221 crore** in Q1 FY27, driven by robust execution in H&R Johnson and Prism RMC, while Prism Cement demonstrated resilience amid a softer market. **Continued improvement in ROCE** reflects a disciplined capital allocation and stronger operating performance, driven by an asset-light mix—including outsourced cement grinding, strategic tile sourcing, and select franchisee-led RMC operations.

The quarter was marked by multiple external headwinds, including elevated fuel costs and inflation in key raw materials following the Middle East crisis, as well as a competitive pricing environment in the cement industry. Despite these challenges, disciplined cost management, operational efficiencies and calibrated pricing actions enabled the Company to deliver healthy profitability across its business.

The completed divestment in **Raheja QBE General Insurance⁽²⁾** sharpens our focus on core building materials and accelerates deleveraging. With a healthier capital structure and strong growth levers, Prism Johnson is well-positioned for sustainable long-term growth.

Prism Cement : Resilient Q1 FY27 Performance

EBITDA per tonne remaining broadly stable at **₹706/t in Q1 FY27**, compared to **₹708/t** in Q1 FY26, despite a softer environment in Central India. **ROCE stood at 29.3%** for the quarter, among best in the cement industry.

Profitability was supported by a dynamic fuel-mix strategy, enabling effective cost control amid market volatility. During the quarter, the Company reduced its dependence on petcoke while increasing the use of domestic coal and AFR. In addition, the recent AFR facility upgrade and debottlenecking provide greater flexibility to further optimise energy costs.

The Cement Division expects to realign its planned shutdown maintenance schedule to the traditional Q2–Q3 period, compared with Q3–Q4 in the previous year. While this shift may result in quarterly fluctuations in EBITDA per tonne due to maintenance timing, the underlying earnings profile remains intact. Accordingly, the business remains on track to improve full-year profitability through higher volumes, premiumisation and disciplined cost management, while any favourable pricing environment shall provide additional support to profitability.

Volume:

- Sales volume (Cement and clinker) declined by 6% to 1.85 mn tonnes in Q1 FY27 from 1.96 mn tonnes in Q1 FY26, reflecting a softer central India market environment.
- Share of premium products (of total cement sales volume) stood at 67% in Q1 FY27 vs 46% in Q1 FY26.

Revenue:

- Revenue remained resilient at ₹903 crore in Q1 FY27, despite a softer demand environment and continued pricing pressure.

EBITDA:

- EBITDA per tonne remained broadly stable at ₹706/t in Q1 FY27, despite lower volumes and higher input costs, including packaging and fuel. The impact was partially offset by a marginal improvement in realisations and continued fuel mix optimisation, supported by recently upgraded AFR facility.

Others:

- Average lead distance stood at **344 km** in Q1 FY27 compared with **356 km** in Q1 FY26.
- Fuel cost stood at **₹1.61/Mcal** in Q1 FY27 compared with **₹1.68/Mcal** in Q1 FY26.
- ROCE stood at **29.3%** in Q1 FY27 (vs 30.3% in Q1 FY26)

H & R Johnson : Delivers Strong Profitability Despite Temporary Operational Disruptions

HRJ delivered a robust profitability in Q1 FY27, with EBITDA more than doubling YoY to ₹47.2 crore and EBITDA margin expanding to 9.0% from 3.3% in Q1 FY26. This performance is driven by higher realisations, disciplined cost management, and a favorable net inventory impact, which has fully offset volume and energy cost headwinds linked to Middle East supply disruptions.

Realisations increased by 17.0% YoY to ₹394 per sq. m. in Q1 FY27, supported by price hikes implemented to pass on escalated energy costs, as well as favorable pricing power arising from supply constraints due to unorganised player shutdowns in the Morbi cluster.

Outlook : While the energy cost pass-through is expected to remain broadly aligned with underlying input cost trends, the pricing benefit from temporary supply tightness is likely to moderate as industry supply normalises.

With operations now stabilised, a healthier SKU mix in place, and resilience demonstrated through a period of industry disruption, HRJ enters the coming quarters with a strong foundation for sustainable growth and improved profitability.

■ FY26 ■ FY27

Revenue Mix – Q1 FY27 (%)

Tiles Volume (million m²)

■ FY26 ■ FY27

Revenue:

- Tiles Division: Revenue down 4.1% YoY to ₹423 Cr, as volume was impacted by temporarily low inventory levels and unhealthy SKU mix following earlier Morbi disruptions. The revenue partially offset by higher realisation.
- Bath Division: Revenue flat YoY at ₹76 Cr.

Volume (Tiles):

- Tiles sales volume down 18% YoY to 10.8 MSM in Q1 FY27.
 - Domestic: 10.6 MSM vs 12.6 MSM
 - Exports: 0.14 MSM vs 0.50 MSM
- Capacity utilisation stood at 58.2% in Q1 FY27, providing headroom as SKUs normalise, subject to demand conditions and supply disruption.

EBITDA:

- EBITDA margin for Q1FY27 expanded to 9.0% compared to 3.3% in Q1FY26, demonstrating strong profitability resilience despite a volume contraction in the Tiles segment.
- The margin expansion was primarily driven by increase in tile realisations, strict overhead control and a favorable impact from net inventory buildup. These gains were partially offset by lower tile sales volumes.

Performance Review

Prism RMC: Strong Operating Performance Backed by Disciplined Execution

Strong start to FY27, with total volumes increasing 14.1% YoY to 9.0 lakh m³ in Q1 FY27, driven by healthy growth across both Commercial Concrete (CC) and Mega Projects segments. Revenue from operations grew 24.9% YoY to ₹419 crore, primarily driven by improved volumes in the CC business.

Operating performance strengthened, with EBITDA increasing 151% YoY to ₹42.9 crore and EBITDA margin expanding to 10.2% from 5.1% in Q1 FY26. The improvement was driven by operating leverage, better plant and fleet utilisation, and one-time debtors write-back of ₹11.6 crore in the quarter.

The Mega Projects business continued its recovery following the strategic transition in its business model, with volumes growing 24.4% YoY and an order book of ~13.9 lakh m³ at the end of June 2026.

The RMC business continues to maintain one of the highest per-plant throughput and price realisations in the industry, reflecting focus on operational excellence, product mix and network efficiency. The division continues to evaluate opportunities for selective capacity expansion in attractive markets through new plant additions.
